Welcome to the Elec's Ranks GitHub Page!

About Elec's Ranks

Elec's Ranks is a **free** and **100% customizable** ranks solution for both **Java** and **Bedrock!** It's easy to install and customize! It's also already setup for LuckPerms, making it extremely easy to install!

❤ PLEASE READ: This pack took much time and research, so donating would be very appreciated! https://paypal.me/eleciscool ❤

Examples

Here are a few examples of some of the ranks in the pack!

Installation

First, download the Bedrock Pack and the Java Pack

Bedrock Pack

If you want to install it on the client side, double-click the **"elecs-rank-pack.mcpack"** file! Now go into Minecraft Bedrock and visit the Settings>Resource Pack tab. Select the "Elec's Ranks Pack".
To install it with **GeyserMC**, drag it into the "packs" folder in the plugins>Geyser-Spigot directory. Then restart your server!

Java Pack

If you want to install it on the client side, press Windows Key + R and type %appdata%. Now you can open the .minecraft folder and then the resourcepacks folder. Drag in the **"elecs-rank-pack-java.zip"** file. Now go into Minecraft and apply the resource pack! To install it on your server, navigate to the server.properties file and enter the following:

```
resource-pack: https\://www.dropbox.com/scl/fi/mhrl3kig7eyi4my63qr5j/java-ranks.zip?rlkey
\=mv87tijwqxftorl9wutnb67yy&st\=k1rjqgbl&dl\=1

Setting up LuckPerms

If you want the ranks displayed in front of players names, download the luckperms-h2-v2.mv.db file! Now you can stop your server, and delete the luckperms-h2-v2.mv.db folder generated by LuckPerms. Then, drag in the luckperms-h2-v2.mv.db file. To see it in chat and tab, install LPC and TAB. Now start your server and see the ranks!

Adding Ranks

To add ranks, type this command into Minecraft `/lp user <player> parent set <rank>`
